

## • A Whole New Translation Service

- You can search for information on translation orders, payments and available languages (the original text, translation and words) via the PC and mobile.
- We provide files for both the original text and translated text, a glossary and linguistic data in Excel files. We also offer discounts for repeated sentences and unlimited follow-up services.

## • Available Languages

English, Chinese, Japanese, Russian, German, French, Spanish, Vietnamese, Malaysian, Thai, Indonesian and others

### Translation Software [VisualTran Mate]

VisualTran Mate analyzes the original text in MS Office or HWP files sentence by sentence. It reuses phrases and words so that the whole text maintains its consistency. The translation memory feature-enabled software is registered as a Microsoft partner product available for multiple languages.

### Recruitment of Editors for Diverse Languages

We are looking for translators for diverse languages with extensive experience. Our translation tool (VisualTran Mate) helps you translate texts in a faster and more accurate manner. Please join us for a better career and partnership. Please refer to the website (Company Introduction - Recruitment of Editors) for more inquiries and information.

Our key customers include Gyeonggi Province, the Korea Federation of SMEs, KOTRA, Ssangyong Information Communications, Lotte, Hyundai-Samho Heavy Industries, Sahmyook University and Wonkwang University. We will continue to serve our customers with care and extensive experience.

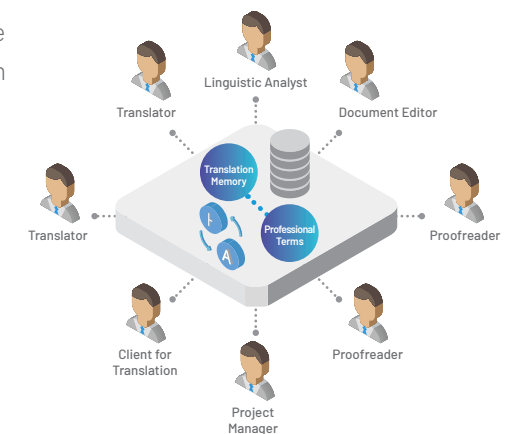

## Features of Expert Translation Services

We strive to automate all the translation processes, improve the translation quality through AI, CAT and other technologies derived from the Fourth Industrial Revolution, and provide final translations ASAP so all our customers are perfectly satisfied with our service.

### • High-Quality Translations

- With the advent of the Fourth Industrial Revolution, the convergence between humans and ICT, we provide high-quality translations from expert translators in each sector utilizing AI, CAT and big data.
- As a key translation partner with Microsoft, we provide translation services for all languages for different sectors and utilize translation software called VisualTran Mate, which ensures high-quality translations and proofreading.

### • Reasonable Fee

- You can reduce your translation costs by around 30% compared to other competitors as we exclude repetitive sentences and phrases that are already translated by analyzing the original text.
- We automated all the processes for translations to reduce the cost of the actual translation and management.
